

PRANAY DUMBHARE

Software Engineer at Oracle FSGBU | Scalable Microservices & Performance-Tuned Systems
+91 7744024976 | pranaydumbhare1006@gmail.com | [in](#) LinkedIn | [G](#) Github | Pune, Maharashtra

EXPERIENCE

- **Oracle FSGBU**  07/2023 - Present
Software Developer - Banking Origination Team Pune, Maharashtra
 - Designed and developed high-performance, **microservices-based applications** for Oracle Banking Origination, adhering to best code practices for security, scalability, and maintainability.
 - Led **DevOps** initiatives to streamline software delivery by implementing **CI/CD pipelines**, automating deployments, and enabling proactive monitoring, achieving a **75%** reduction in delivery lifecycle time.
 - Achieved a **60% reduction** in legacy API response times by diagnosing bottlenecks through in-depth **load testing** and **distributed tracing analysis**, and executing strategic code and infrastructure optimizations.
 - Achieved **80%** test coverage across 17 services by implementing a robust, automated testing framework, which integrated both **unit** and **service-level API tests** to significantly improve code reliability.
- **Oracle**  05/2022 - 07/2022
Application Developer Intern - Leasing and Lending Team Pune, Maharashtra
 - Developed multiple POCs focused on optimizing database indexing strategies using Apache Lucene and GraphQL, achieving a **30%** reduction in query response time.
 - Documented key processes, ensuring knowledge transfer and smooth onboarding for future team members.

SKILLS

- **Languages:** Java, Python, C/C++, JavaScript, TypeScript, SQL, HTML/CSS.
- **Frameworks & AI:** Spring Boot, NumPy, Pandas, Generative AI, AI Agent Architecture, Prompt Engineering.
- **CI/CD & Performance Testing:** Git, Jenkins, Linux, JMeter, Zipkin, Grafana.
- **Cloud & Tools:** Amazon Web Services (AWS), Oracle Cloud Infrastructure (OCI), Supabase, Swagger, Chrome Dev Tools, IntelliJ, Postman, Colab.

PROJECTS

- **Serve.Eco - A Platform for Environmental Awareness & Engagement** 05/2025 – 07/2025
Tools: HTML/CSS, TypeScript, Supabase, Github
 - Designed a multipurpose static web application to enable users to create eco-communities and organize sustainability-focused events.
 - Built a marketplace module allowing eco-friendly product listings and purchases.
 - Integrated a blogging system for users to share environmental articles and best practices.

EDUCATION

- **Visvesvaraya National Institute of Technology Nagpur** 07/2019 - 06/2023
B.Tech in Electronics and Communication Engineering 8.61/10.00

PUBLICATIONS

- **Hybrid HoVer-Net**  11/2022
International Conference on Computer Vision & Image Processing (CVIP-22)
Developed a novel hybrid deep learning and image processing approach for the CoNIC challenge, achieving **91%** accuracy (a 3% increase over baseline) in colon nuclei segmentation.

ACHIEVEMENTS AND POSITIONS OF RESPONSIBILITY

- Awarded the **Pacesetter Award** at Oracle for significant contributions to team success, recognized as the youngest recipient of this award. ([Certificate](#))
- **Co-founder, VANEESHA RISE FOUNDATION** – Led tree plantation and cleanliness drives in Pune, promoting environmental awareness.
- **Active Alumni Member, Avanti Fellows** – Mentored underprivileged children, providing guidance and quality education.
- **Training & Placement Coordinator**, ECE Department, VNIT – Managed placement activities, facilitated company interactions, and ensured smooth recruitment processes.
